

# SPRINGVILLE INTERCHANGE LANDSCAPE RETROFIT

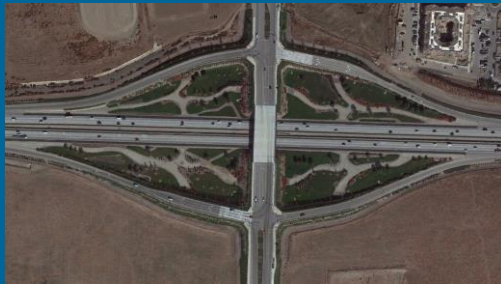

## Award of Contract

April 24, 2019

### Springville Interchange Landscape Retrofit

- Planting 60 Bougainvillea shrubs to increase coverage on slopes
- Planting 35 trees to replace those lost to high groundwater and poor drainage
- Replacement of overhead spray irrigation with drip irrigation on slopes reducing water use
- Installation of liquid fertilizer system to automatically fertilize plants to improve plant growth and reduce cost of manually fertilizing plants
- Installation of water flow sensors to more efficiently control irrigation flow rates to reduce water use
