March 28, 2020

Dear Fellow Residents:

Ten days ago, the Governor and our Ventura County Public Health Officer issued “Stay Well At Home” Orders. The intent of these orders is to ensure that to the maximum extent possible, with some exceptions, we stay at home. Following these orders is critically important in the attempt to “flatten the curve” of the coronavirus infection rate and to ease the anticipated burden on our local hospitals in the coming weeks.

The best social distancing you can practice right now is to stay at home. If you must venture out for essential services, or to get some physical activity, please take all of the hygiene precautions urged by our public health experts. These precautions include: don’t congregate in groups; maintain a six-foot distance from others; wave instead of shaking hands; avoid touching surfaces; and use hand sanitizer when you’re out and about. And be sure to wash your hands often! For more information, please visit the www.vcemergency.com and www.cityofcamarillo.org websites.

As you know from the news media, we are at “crunch time” here in Camarillo and Ventura County in trying to slow the spread of COVID-19. These next few weeks are vital to these efforts. Please do your part in this fight. It will make a difference for our community.

Please take care of yourself and each other. Our community will persevere and we will get through this challenge, together. Thank you!

Sincerely,

Tony Trembley
Mayor
