March 17, 2020

Dear Fellow Residents:

The COVID-19 public health emergency presents us with an unprecedented challenge. In recent days, we have all experienced very significant impacts to our daily lives. Federal, state and local governments, including the City of Camarillo, have taken multiple actions to navigate this rapidly evolving issue. Additional steps to protect public health and safety are likely in the days ahead.

Please know that the City Council and City staff are working very hard to responsibly address this challenge and to provide critical municipal services during this difficult time. I am very proud of the efforts of our City employees, who go above and beyond to serve the public.

Please do everything you can to fully comply with the directives of our local Ventura County Public Health Officer; the California Department of Public Health and the Governor; the federal government; and our own City directives. It is critically important that we stay level-headed and focused as we address this emergency.

Please also support and lift up one another during this difficult time. Kindness to others goes a long way. Our community will persevere and we will get through this challenge, together.

Thank you for your patience as we move forward.

Tony Trembley
Mayor
