About the Program
In accordance with the California Green Building Standards Code (CalGreen), all new residential, commercial, and mixed use construction projects in Camarillo are required to divert a minimum of 65 percent of construction and demolition (C&D) waste from landfill disposal.

With the right resources and planning, many projects are successful in diverting well over 65 percent of their project waste from disposal. Many even save money throughout the process!

Who Must Comply

Residential
- All new construction of permitted structures
- All demolition of permitted structures
- Additions and alterations to residential buildings that increase the structure’s conditioned area, volume or size are also required to meet the 65% minimum diversion requirement.

Non-Residential
- All new construction of permitted structures
- All demolition of permitted structures
- Additions of permitted structures
- Alterations of permitted structures

Source: 2016 California Green Building Standards Code (CALGreen) Part 11 of Title 24, California Code of Regulations. The applicable sections for residential construction can be found in Section 4.408 and in Section 5.408 for most non-residential new construction. Sections 301.1.1 and 301.3 addresses additions and alterations diversion requirements.

### How to Comply with Camarillo’s C&D Recycling and Reuse Program

<table>
<thead>
<tr>
<th>Step</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Step 1</strong></td>
<td>Pick up required forms (Construction &amp; Demolition Management Plan and Final Report) at the Building &amp; Safety Department when applying for a building permit.</td>
</tr>
<tr>
<td><strong>Step 2</strong></td>
<td>Complete Construction &amp; Demolition Management Plan identifying management method and C&amp;D materials being generated.</td>
</tr>
<tr>
<td><strong>Step 3</strong></td>
<td>Submit Construction &amp; Demolition Management Plan to Building and Safety Department for approval during the plan.</td>
</tr>
<tr>
<td><strong>Step 4</strong></td>
<td>Request C&amp;D recycling service from an authorized facility or make arrangements to self-haul materials.</td>
</tr>
<tr>
<td><strong>Step 5</strong></td>
<td>Keep the approved Construction &amp; Demolition Management Plan on the job site for the duration of the project.</td>
</tr>
<tr>
<td><strong>Step 6</strong></td>
<td>For the duration of the project, separate materials into dedicated bins OR arrange for recycler pickup and separation of mixed material. Keep all documentation (such as weight tickets &amp; receipts).</td>
</tr>
<tr>
<td><strong>Step 7</strong></td>
<td>At the conclusion of the project, submit Final Report Construction &amp; Demolition Waste Letter of Documentation along with weight tickets and letter of documentation from an approved waste hauler to the Building &amp; Safety Division.</td>
</tr>
</tbody>
</table>

#### What is Construction and Demolition (C&D) Debris?
Uncontaminated, non-hazardous materials generated on the job site, such as:
- Concrete, asphalt, & masonry
- Untreated wood material
- Drywall
- Cardboard and mixed plastics
- Fixtures (doors, windows, toilets)
- Trees, stumps, rocks, vegetation, and soil

**Over 30% of what’s in California landfills is the result of construction and demolition projects.**

#### Ways C & D Materials Are Repurposed

<table>
<thead>
<tr>
<th>Category</th>
<th>Example</th>
</tr>
</thead>
<tbody>
<tr>
<td>Asphalt shingles</td>
<td>New shingles, fuel, road base, hot mix asphalt, temporary roads or driveways</td>
</tr>
<tr>
<td>Concrete</td>
<td>Ready mix concrete, road base, landscaping material</td>
</tr>
<tr>
<td>Wood</td>
<td>Reclaimed wood furniture, landscaping material</td>
</tr>
<tr>
<td>Drywall/gypsum board</td>
<td>New drywall, composting additive</td>
</tr>
<tr>
<td>Fixtures</td>
<td>Refurbished and reused</td>
</tr>
</tbody>
</table>

For questions, additional information or help with forms, please contact the Recycling Coordinator at (805) 388-5392 or e-mail rpichardo@cityofcamarillo.org

### Don’t Forget

State Law requires that construction and demolition projects divert 65 percent diversion of all non-hazardous construction materials from the landfills (CalGreen Building Code Part II of Title 24 California Code of Regulations).

Excavated soil and other land clearing debris such as tree, stumps, rocks must be reused or recycled at 100 percent diversion (CalGreen Building Code Sec. 5.408.4).

Use and approved waste hauler of solid waste in the City of Camarillo. Self-hauling of materials is permitted only when a licensed contractor uses their own employees and equipment as an incidental part of the total service.

Prior to final inspection, submit the Final Report Construction & Demolition Waste Letter of Documentation along with weight tickets and letter of documentation from an approved waste hauler must be submitted to Building & Safety Division.
