Refuse & Recycling Services

The City of Camarillo is pleased to offer our customers multiple refuse service levels, with corresponding volume-based charges. Curbside recycling is an integral part of each service level. Yard waste recycling is provided with both Standard and High Volume Service. Please select a service option based on your disposal habits.

All customers should place refuse in **green** barrels, curbside recyclables in **blue** barrels and yard debris and wood waste in **tan** barrels (except for minimum service customers). Refuse and yard debris are collected weekly. Refuse placed outside the **green** barrel or yard waste outside of the **tan** barrel will **NOT** be picked up! Recyclables are collected bi-weekly.
